

HOME SCHOOL FIELD TRIPS

Hands-On Field Trips for Students of All Ages

- * Your Homeschool field trip accommodates students of multiple ages in the same group.
- * Students ages 10 and older experience STEM experiments, flight principles, and simulator flying in the only *Aviation Learning Center (ALC)* in Texas.*
- * Students ages 8 & 9 years old prepare for their flight in the simulators in The Pilot Experience.*
- * Students ages 7 and younger explore our *Flight Academy* where they learn about flight through 26 hands-on STEM activity stations.
- * For the littlest learners, the *Toddler Terminal* provides a learning through play experience where aviation is introduced through touch interactives designed for Pre-K students.
- * All groups are greeted with an introduction to the museum to give context to our amazing aircraft.
- * Minimum group size for classes and ALC is 10 students.

So many possibilities for Homeschool students!

Customize your field trip with fee-based add-on classes and deep dive into aviation heritage and STEM demonstrations.*

Add a short presentation such as attempts in early aviation that led to success; exploring the multitude of career paths in the aviation industry; and highlight leaders and innovators in aviation.

We Believe Aviation Inspires Achievement and Endless Possibilities

Your field trip is just the beginning of inspiring further learning for your students. Get a membership for more discovery and learn at your own pace.

Explore diversity in aviation from Bessie Coleman to Aztec Eagles. Learn about innovations in aircraft manufacturing and technology which helped end World War II. Discover the basic flight principles of lift, drag, weight, and thrust. Come back for our visiting plane of the month and spark a lifetime of curiosity.

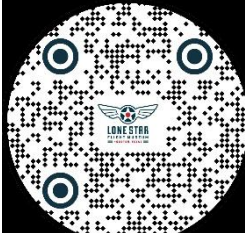

Learn more about Homeschool field trips for your students.

***Customize your visit with add-on topics such as:**
Fly Girls - Drone Dynamics - Zero-G (from air to space) - Weather Impacts on Flight - The WWII Doolittle Raid - Texas Aviation Hall of Fame - Glider Construction

**Available for an additional fee.*
